Our staff are the best

ACRO staff have once again excelled themselves with their commitment to fundraising.

Unfortunately the pandemic put a stop to the popular charity days and cake bakes, but our generous staff have still been able to support good causes in other ways.

The monthly dress-down days always prove popular with staff, and a dress-down week raised bumper funds for Alice's Arc charity, which supported a local little girl through her cancer treatment.

Organised by ACRO's Staff Representatives group, other charities to benefit have included Dementia UK and The Breck Foundation.

Another staff-led group who have had to adapt their way of working during the pandemic is ACRO Wellbeing and Inclusion Network (AWIN). Events for National Inclusion Week moved online as did menopause awareness sessions but staff were able to receive a stress ball as part of World Mental Health Day.

During the height of lockdown, we launched TeamACRO, an initiative to offer additional wellbeing support to staff through posters and a weekly Wellbeing Bulletin full of uplifting content.
